

Notes

- All veterinarians at the same clinic can see all the patients added to the web portal
- When an **account** is **created**, the option is given to send email **invites** to other **veterinarians** at the **practice**, but veterinarians can be added/removed at any time by logging into an active account.

1 Sign in or Sign up

Go to www.GluCurve.com, returning veterinarians can enter username and password then click log in

If this is your **clinic's first time** using a GluCurve Pet CGM, click sign up and create a free account

ALRT* GLUCI	JRVE VETERINARY WEB PORTAL
The GluCurve Veterinary We	b Portal is for use by veterinary clinics only and required in order to activate a GluCurve Pet CGM on a patient.

3 Glucose Curve

After clicking a patient name you will be taken to the glucose curve tab for that patient

- 1. Click each individual dates bar to see the individual day's glucose curve
- 2. Click the box on each day's glucose curve you want to compare and overlay to display in the top graph
- 3. Click show data points to see each individual 3 minute glucose reading for the day

4 Insulin Calculator

Click the Insulin Calculator tab for a list of insulins, calculators, guidelines, and flowcharts.

- 1. Click the calculator icon to pull up an insulin dose calculator
- 2. Click the document icon to pull up suggested dosing guidelines
- 3. Click flow chart icon to pull up the Manufacturer or AAHA dosing flow chart
